DETAILED ACTION

1. No new claims are added. No claims are canceled. Claims 1 and 10-16 have been amended. Claims 1- 16 are allowed over the prior art of record.

Allowable Subject Matter

2. The following is an Examiner's statement of reasons for allowance: After further consideration of the prior art of record, it appears that the prior art of record fails to disclose each and every element of the Applicant's claimed invention. Specifically, the prior art of record fails to teach and/or suggest "compiling the identified portion of the first rewritten query generating a second compiled portion wherein the input query is distributed over the first execution engine and the second execution engine for sequential execution, wherein the sequential execution is performed using serially cascaded execution engines that call to one another as a source for information." The preceding limitations, when combined with rest of the claim limitations recited in claim 1, result in a combination of elements that is both novel and unobvious over the prior art of record.

3. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
